

# 2024 Formulary

## Keys and

---

# Abbreviations

### Drug Name column key:

- *lowercase italics* = Generic drugs
- ALL CAPS = Brand name drugs

### Tier column key:

- Tier 1 Preferred generic drugs
- Tier 2 Non-preferred generic drugs/Preferred brand drugs
- Tier 3 Non-preferred generic drugs/Non-preferred brand drugs
- Tier 4 Specialty drugs

### Key of abbreviations in the Special Code column:

- **PA** indicates prior authorization required for coverage.
- **ST** indicates step therapy required, meaning other drugs must be tried for coverage.
- **QL** indicates quantity limits apply, meaning that there are limits to the amount of drug covered per prescription.

### Key of abbreviations in the Requirements/Limits column:

- **M** indicates medical benefit drug
- **\$0** indicates zero dollar cost share
- **NC** indicates drug is not covered

# Drug List

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN YOUR PLAN. PLEASE NOTE, HOWEVER, THAT CERTAIN DRUGS ON THIS LIST MAY BE EXCLUDED UNDER YOUR SPECIFIC PLAN DESIGN. PLEASE REFER TO YOUR COVERAGE DOCUMENTS TO DETERMINE SPECIFIC BENEFIT LEVELS.**

**PLEASE NOTE:** This list is subject to change and is not all-inclusive. Please review this document and contact Customer Service with questions.

The coverage level for prescription drugs is generally higher when a member receives them at an in-network pharmacy, and, for some plans, members must use network pharmacies to receive prescription drug benefits. Plan terms vary and members should consult their benefit plan documents for specific coverage information.

Prior authorization may be required to obtain coverage for certain drugs on this list. Brand name drugs are listed in CAPITAL letters. Generic drugs are listed in *italicized* lower case letters. The coverage level of brand name drugs may change when a generic equivalent or interchangeable biosimilar becomes available.

**If you have questions, please call the Customer Service number listed on the back of your ID card.**

## **What is a Drug List?**

The Plan's Drug List is comprised of drugs that meet the medical needs of our members and have proven safety and effectiveness. It includes both brand name and generic drugs. The drugs on this list have been approved by the Food and Drug Administration (FDA). A team of physicians and pharmacists meets regularly to review and update the list. Your doctor can use this list to select medications for your health care needs, while helping you maximize your prescription drug benefit.

### **Are both brand name and generic drugs on the list?**

Yes. The Drug List includes brand name and generic drugs from most therapeutic classifications.

The terms "generic" and "brand name" are used in the health care industry in different ways. To better understand your coverage, please review the following:

**Generic:** A drug: (1) that contains the same active ingredient as a brand name drug and is chemically equivalent to a brand name drug in strength, concentration, dosage form and route of administration; or (2) that The Plan identifies as a generic product. The Plan uses industry standard resources to determine a drug's classification as either brand name or generic. Not all products identified as "generic" by the manufacturer, pharmacy or your provider may be classified by the Plan as generic.

The Drug List includes preferred generic prescription drugs and generic prescription drugs. These prescription drugs are your lower copayment or coinsurance options. Consider a preferred generic or generic covered prescription drug if you and your provider decide such a prescription drug is appropriate for your treatment.

**Brand:** A drug: (1) that is manufactured and marketed under a trademark or name by a specific drug manufacturer; or (2) that the Plan identifies as a brand name product. The Plan uses industry standard resources to determine a drug's classification as either brand name or generic. Not all products identified as "brand name" by the manufacturer, pharmacy or your provider may be classified by the Plan as brand name.

**Preferred brand** drugs on the Drug List have a higher copayment or coinsurance. You may consider a preferred brand covered drug to treat your condition if you and your provider decide it is appropriate.

**Non-preferred brand** drugs have the highest copayment or coinsurance. The covered non-preferred brand drugs are usually more costly.

If you have questions about the Plan's Drug List or whether a specific drug is covered (and/or whether the drug is a generic, preferred brand, or non-preferred brand), or if you would like to request a copy of the the Plan's Drug List at no charge, call Customer Service at one of the telephone numbers listed inside the front cover of your benefit plan document.

### **Does the Drug List ever change?**

The Plan's Drug List can change during the course of a calendar year. The Plan strives to limit these changes. Examples of when changes may occur include when a new generic drug or interchangeable biosimilar becomes available or when new adverse information about the safety or effectiveness of a drug is released.

**Certain drugs on the Drug List may be excluded under your specific plan design. Please refer to your benefit plan document to determine specific benefit levels.**

## How do I use the Drug List?

There are two ways to find your drug within the Drug List:

### Drug Category

The drugs in this Drug List are grouped into categories depending on their clinical classification. For example, drugs that are considered “anti-infectives” will be listed under the “anti-infectives” category. If you know how your drug is classified, look for the category name in the list. Then look under the category name for your drug.

### Alphabetical Listing

The Drug List Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## **Preventive Drug and Supply Medications (\$0)**

Medications displayed with the “\$0” indicator are defined as preventive health services under the Affordable Care Act (ACA) and are provided without member cost sharing. If your benefit includes mail order, please note that some preventive drugs and supplies may not be available through this service.

**Please Note:** Your benefit plan defines the level of coverage.

Remember, just because a drug that you take is listed on the Drug List does not mean that your benefit plan covers that medication. If you have questions, please refer to your benefit plan document or call the Plan’s Customer Service phone number listed on the back of your ID card to determine what level of coverage you have.

**Note:** *To Search the Drug List, use ctrl + F on your keyboard and type in the search term.*

## **Are there any restrictions on my coverage?**

For some prescriptions there are special requirements that must be met in order to receive coverage. These include:

### **Prior authorization (PA)**

Certain drugs require prior authorization (approval in advance) from the Plan in order to be covered. These medications are shown on the Drug List with the abbreviation "PA." The Drug List is available to providers, including pharmacies. Your network provider who prescribes the drug should initiate the prior authorization process. You will pay the entire cost of the drug received if you do not meet the Plan's authorization criteria.

### **Step therapy (ST)**

Step therapy is a process that involves trying an alternative covered drug first (typically a generic drug) before moving to a preferred brand or non-preferred brand covered drug for treatment of the same medical condition. The medications subject to step therapy are shown on the Plan's Drug List with the abbreviation "ST." You must meet applicable step therapy requirements before the Plan will cover these preferred brand or non-preferred brand drugs.

### **Quantity limits (QL)**

Certain covered drugs have limits on the maximum quantity allowed per prescription over a specific time period. The medications subject to quantity limits are shown on the the Plan's Drug List with the abbreviation "QL." Some quantity limits are based on the manufacturer's packaging, FDA labeling or clinical guidelines.

### **Medical Benefit Drugs (M)**

Certain drugs fall under the medical benefits rather than pharmacy benefits. These drugs require administration by healthcare professionals in a physician's office, outpatient hospital or home infusion setting. You can find information on Medical Drug Policies on The Plan's website.

### **Pharmacy requirement (LMSP, MSP)**

Certain self-administered and cancer treatment medications must be obtained from a designated specialty pharmacy in order to be covered.

## **Can I request an exception to the coverage restrictions?**

Yes. Your doctor can find the information they need to make a request on your behalf on The Plan's website. To facilitate a thorough review, The Plan asks that all information requested in the form be provided, including documentation of which medications have been tried and failed, including the dosages used, and the identified reason for failure (e.g. side effects, lack of efficacy).

### **Specialty Program (LMSP, MSP)**

Certain drugs are available only through your Specialty Pharmacy benefit. Specialty medications are high-technology, high cost, oral or injectable drugs used for the treatment of certain diseases that require complex therapies. Many specialty medications require special handling and in most cases are prescribed by a specialist.

In order to receive a LMSP designated specialty medication, you must utilize Lumicera Specialty Pharmacy (The Plan's designated specialty pharmacy).

### **Limited Availability Drugs (LD)**

In certain circumstances, select medications may only be available at certain pharmacies. Limited distribution (LD) drugs (LDD) are medications that may have special dosing or lab monitoring requirements that need to be followed very closely. Because of this, the manufacturer sometimes chooses to limit the distribution of its drug to only a few pharmacies, or as part of the drug approval process the FDA may recommend this type of distribution in order for the drug to be approved. This type of restricted distribution helps the manufacturer keep track of drug inventory, properly educate dispensing pharmacists about any necessary monitoring, and ensure that any risks that are associated with the LD drugs are minimized.

Your provider typically knows where to send prescriptions for limited availability drugs, but if you have any questions, reach out to Lumicera Specialty Pharmacy and they will assist you in which specialty pharmacies can dispense the drug you need.

### **Oral Oncology Medications**

Oral drugs for the treatment of cancer are restricted to the Specialty Pharmacy Network (or LDD designated pharmacy), but are not subject to the specialty prescription drug copay. Oral oncology specialty medications are subject to the applicable outpatient prescription drug copay as outlined in your benefit plan document.

**PLEASE NOTE:** Reference the Specialty Drug List on The Plan's website for further information.

**Search Tip:**

This is a large document, but you can search quickly and easily by entering CTRL F and it will then display a find box for you to type in the name of the drug you want to locate. If you do not know the correct spelling, you can start your search by entering just the first few letters of the name.

Tablet Splitting Program**

Tablet splitting helps control prescription drug benefit costs and can provide significant savings for members. Participation in the program is voluntary. Through this program, members pay up to one-half of their usual copayment on a select group of prescription drugs. Drugs included in this program are based on the following criteria:

- The drug product is on the formulary.
- The drug product is recognized as an appropriate product to split by the Pharmacy & Therapeutics Committee.
- The drug is flat priced (i.e. various strengths of the medication must be comparably priced).
- The medication must have once-daily dosing.

An example of the savings that can be realized through this program is illustrated below:

	Product & Strength	Quantity	Member Copay	Member Annual Savings
Without Tablet Splitting	Drug A 40 mg tab	30	\$15.00	
With Tablet Splitting	Drug A 80 mg tab	15	\$7.50	\$90

As the example illustrates, tablet splitting allows members to receive the same dose in a fewer number of tablets; thus, the overall
